

## NET IMPACT ISB CHARTER

### Guiding Principles

#### Our Promise to Team Members

- To develop each student's **understanding and capacity** to convert thoughts into positive impacts, not just with this group, but where ever their passions lead them.

#### Our Promise to ISB

- To take **meaningful actions** to reduce the negative impacts at ISB and utilizing those actions to **raise awareness** of global sustainability issues among the broader ISB community.

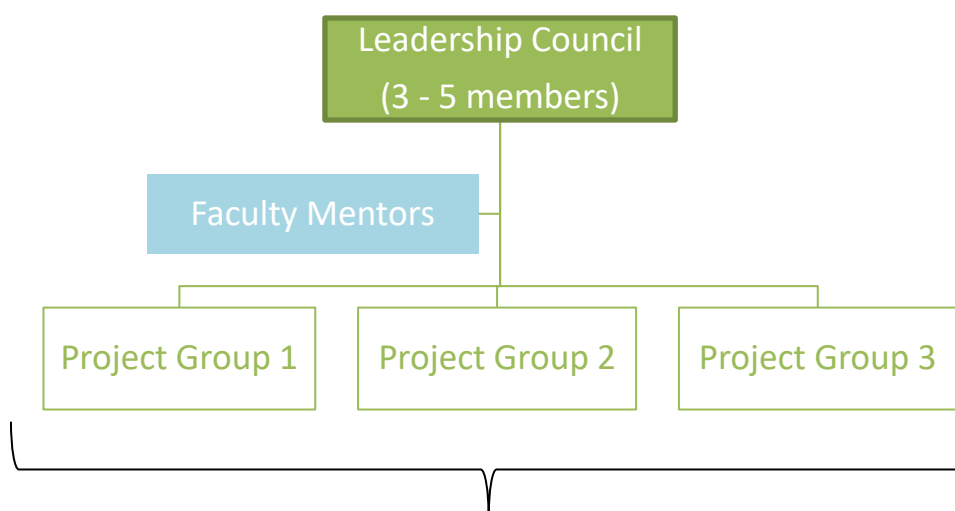

#### Our Scope

- Any areas of influence that may have a **social and/or environmental impact** to our students, faculty, staff, visitors, and local and global communities, excluding classroom learning.

### Objectives

1. To use ISB as a **living laboratory** for positive change.
2. To take a business style approach towards identifying issues and developing and executing solutions.
3. To develop robust solutions that are sustainable – meaning the solution can continue well after the students graduate.
4. To develop solutions that are significantly free of unintended negative impacts.
5. To own solution execution to the fullest extent feasible by a student organization.
6. For each student to **leave a legacy** at ISB with the solutions they have developed and executed.
7. To transform ISB into a model global citizen one project at a time.

### Organizational Structure

## **Roles and Responsibilities**

### ***Leadership Council***

1. Run council meeting (including setting agenda, meeting minutes)
2. Review, approve and comment on Project Groups and individual projects
3. Provide Project Group progress reports / Coordinate Project Group leader to present progress during council meeting
4. Provide quality control for any external communications / proposals / events
5. Tracking incoming / outgoing funds
6. Monitoring overall project impacts
7. Coordinate meeting, assembly presentations, and project schedules
8. Act as the student voice for ISB's sustainability strategy, planning, metric setting, and reporting activities
9. Track general meeting attendance

### ***Faculty Mentors***

1. Ensure overall direction aligns with the Mission
2. Provide technical and coordination support to Council and Project Groups
3. Coordinate with ISB management to mitigate against misalignment of student effort with the broader school efforts
4. Provide final quality control for any external communications / proposals / events

### ***Project Groups***

1. Identify project(s) to work on during general meetings
2. Develop project proposals for review and approval by Council
3. Provide progress updates to Council
4. Implement / present projects, as applicable
5. Communicate impacts (i.e. e-board, website articles)

## **Expectations**

### ***Leadership Council***

1. Be present at all Council and General meetings (sickness and unmitigable conflicts withstanding)
2. Be passionate and bring ideas of how to make a net positive impact at ISB
3. Conduct research and provide support outside of meeting time on occasion

### ***Faculty Mentors***

1. Be present and available at all Council and General Meetings (sickness and unmitigable conflicts withstanding)
2. Ask questions to support student learning and awareness
3. Challenge students on their assumptions to uncover unintended negative consequences

### ***Project Groups***

1. Be present and available at all General Meetings (sickness and unmitigable conflicts withstanding)
2. Be passionate and bring ideas of how to make a net positive impact at ISB
3. ASK FOR HELP when the group is stuck or 'spinning their wheels' to make the most of meeting time
4. Set milestone goal(s) at the start of each meeting and work to accomplish those milestone(s) by the end of meeting time.
